Electronic Notice: If you receive this Notice on our Web site or by electronic mail (email), you are entitled to receive this Notice in written form.

Breach Notice: The Company keeps both hard-copy documents and electronic information on each of their patients. There is a presumption made the impermissible acquisition, access, use or disclosure is a breach unless the company can demonstrate there is a low probability that the privacy or security of the PHI has been compromised based on a four factor risk assessment. As such, the company is required to provide a Breach Notice regarding both encrypted and non-encrypted PHI. Any affected individuals will be notified, via certified mail in writing, of a breach of secured or unsecured PHI in accordance with the PA Breach of Personal Information Notification Act (73 P.S. §§ 2301). This includes a breach acknowledged by the company itself or another vendor whom the company has a Business Associate Agreement with that is required to protect and secure PHI for the company. In addition, the breach may be reported to any consumer reporting agencies that compile and maintain files on consumers on a nationwide basis as defined in Section 603 of the Fair Credit Reporting Act if the breach affects more than 1,000 persons at one time. Any notifications may be delayed if law enforcement officials determine that a notification would impede any criminal or civil investigation. This act permits “substitute notice” consisting of email notice, conspicuous posting of the notice on the business website and notification to major statewide media if the cost of providing the notice would exceed \$100,000 or the affected class of people to be notified exceeds 175,000 or if the business does not have sufficient contact information.
